## ABOUT THE LIBRARY

The Homeland Security Digital Library (HSDL) is the nation's premier collection of resources for homeland security professionals and researchers. If you're looking for documents that address homeland security policy, strategy, or organizational management, then you've come to the right place! More than 310,000 website users access HSDL resources to support their analyses, inform decision-making, and strengthen academic research.

## WHEN YOU NEED AUTHORITATIVE SOURCES

All the resources are curated by a team of librarians and content analysts who specialize in homeland defense and security issues. These resources cover a wide breadth of topics that are both timely in nature and relevant to current issues. By collecting and sharing an entire library of documents and resources, the HSDL is serving a key role in strengthening national security through collaboration across local, state, tribal, territorial, and federal agencies.

## HOMELAND INFRASTRUCTURE FOUNDATION-LEVEL DATA (HIFLD)

HIFLD is a comprehensive collection of national foundation-level geospatial data within the open public domain that can be useful to support community preparedness, resiliency, research, and more.

## THE COLLECTION RESOURCES

The HSDL provides resources including reports, fact sheets, infographics, theses, podcasts, videos, and presentations. These resources are collected from a variety of sources such as U.S. federal, state, and local government agencies, departments, international governments, as well as educational and research institutions.

TOTAL RESOURCES: OVER 297,760

## HSDL IS OPEN TO EVERYONE

Anyone may access the HSDL Public Collection without registering for an account. To access the Full Collection of documents, you must register for an account and have an association with the military, government, homeland security education, or research. In addition to individual user access, your agency can request organization-wide access. This makes it even easier for your colleagues to utilize the HSDL. More than 790 different organizations have been granted access—from military installations to government agencies to private research institutions and public universities.
