Share Fair Table, 2018

Student Poster, 2019

Share Fair Purpose

The Share Fair provides a great opportunity to share programs, projects, activities, and events from colleges, universities, and agencies. The purpose is to exchange information regarding effective practices related to emergency management education. Some examples might include internship programs, job placement, campus resilience, academic-practitioner collaboration, education for adjunct faculty, student recruitment, graduate tracking or service-learning projects, and successful practices in curricula design, development, and delivery.

Share Fair Participants

- Accenture, LLC
- Center for Homeland Defense and Security
- CONVERGE, Natural Hazards Center, University of Colorado Boulder
- Council for the Accreditation of Emergency Management and Homeland Security Education
- Embry-Riddle Aeronautical University Worldwide Campus
- Emergency Management Institute
- FEMA/EMI Independent Study
- FEMA Higher Education Program
- FEMA Recruitment

- Institute for Diversity and Inclusion in Emergency Management
- Mid-Atlantic Center for Emergency Management and Public Safety
- Mineta Transportation Institute, San Jose State University
- National Disaster Preparedness Training Center
- Readiness and Emergency Management for Schools Technical Assistance Center
- ResponderStrong
- Security and Emergency Response Training Center

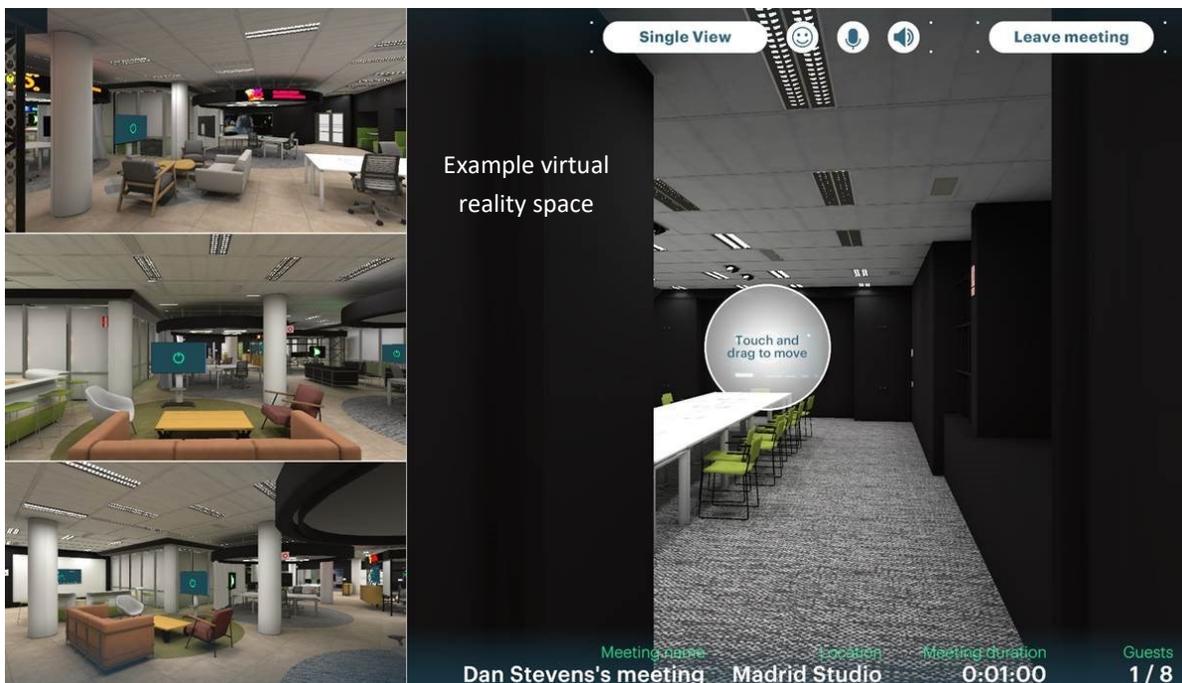

Accenture, LLC

We are excited to share insight into our virtual reality collaborative workspace, which allows users to interact, share ideas, and conduct work all from the safety of their own home. The applications are endless for virtual meetings, conferences, classrooms, and even emergency operation centers for both training and real-world environments.

A subject matter expert will be providing a demo via Microsoft Teams on Wednesday, June 3rd from 6:00–7:30 PM EST.

* Please see the following page for more information. *

THE ART OF THE POSSIBLE

Imagining how innovation in
virtual reality can shape the future
of emergency management

A Virtual Happy Hour Experience

Microsoft Teams Demo**

Daniel Stevens and Scott Tavroh

Wednesday, June 3rd from 6:00–7:30 PM EST.

Microsoft Teams: [Event Link](#)

Audio Only: 872-215-2965

Conference ID: 597 535 375#

Link to download Virtual Reality App: *will be provided the day prior to the event.*

This event will feature an immersive experience for participants to interact inside a virtual reality (VR) environment. After receiving a brief overview of the technology and discussing potential applications, those able to download the App will be split into groups to join VR sessions on the following topics:

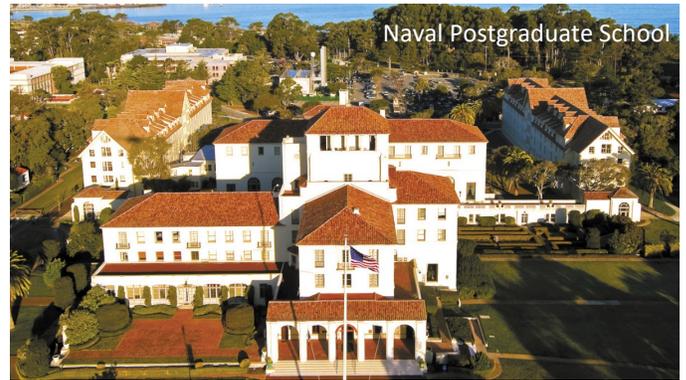

- Virtual Classrooms
- Virtual Emergency Operations Centers
- Community Engagement through VR

Those unable to join the VR space will stay in the main Teams meeting for a discussion on the Limitations of Technology.

****A flyer will be provided for download in the daily wrap-up on June 2nd from 4:40–5:00 PM EST.**

Center for Homeland Defense and Security

The Center for Homeland Defense and Security (CHDS) is located at the [Naval Postgraduate School](#) in Monterey, California. Since 2003, CHDS has conducted a wide range of programs focused on assisting current and emerging leaders in Homeland Defense and Security to develop the policies, strategies, programs, and organizational elements needed to defeat terrorism and prepare for and respond to natural disasters and public safety threats across the United States. The programs are developed in partnership with and are sponsored by the [National Preparedness Directorate, FEMA](#).

CONVERGE, Natural Hazards Center, University of Colorado Boulder

The CONVERGE Training Modules are free online courses designed to accelerate the training of extreme events for researchers and practitioners, with an emphasis on students and other early career professionals. The modules cover a wide range of topics and are designed to help prepare researchers to carry out extreme events research that is coordinated, comprehensive, coherent, ethically grounded, methodologically sound, and scientifically rigorous. Each module features learning objectives, lesson plans, written content, and case study vignettes. The modules also include a list of publications for further reading as well as access to related standardized scales and measures, online resources, data sets, and other information. Each module is followed by a short multiple-choice quiz. Those who receive a score of 80% or higher will receive a CONVERGE Training Module Certificate of Completion. To date, we have released three modules: Social Vulnerability and Disasters; Disaster Mental Health; and Cultural Competence in Hazards and Disasters Research.

For more information:

Council for the Accreditation of Emergency Management and Homeland Security Education

The Council for the Accreditation of Emergency Management and Homeland Security Education consists of individuals and institutions professionally engaged or interested in the promotion of post-secondary education in the academic disciplines of emergency management (EM) and homeland security (HS) by offering opportunities for collaboration and accreditation.

Our Purpose: To evaluate and accredit higher education programs in EM and HS disciplines.

Our Mission: To serve the EM and HS communities by promoting the highest academic standards for educational institutions through an accreditation program that ensures high quality curriculum and instruction and continually advances the quality of education within the field.

Our Vision: To advance, endorse, and facilitate quality EM and HS disciplines in higher education through an evaluative accrediting process that will strengthen and contribute to the professions and promote public and community resilience.

Embry-Riddle Aeronautical University

Worldwide Campus

The Department of Security and Emergency Services at Embry-Riddle offers B.A. and M.S. Emergency Services degrees. Our programs prepare students for possible careers in fire and emergency services, disaster management, emergency management, research, public policy development, organization management, leadership, and terrorism response. Current research areas supported by this degree include: hazardous materials, suppression systems, risk and crisis planning, geographic issues, pre- and post-disaster mitigation, and emerging technologies. Offered completely online and 12 months a year, this program facilitates networking with fellow professionals from around the world, as well as faculty with years of practical experience, the majority with terminal degrees.

EMBRY-RIDDLE
Aeronautical University

WORLDWIDE
& ONLINE

Emergency Management Institute, FEMA

Through its various courses and integrated programs, EMI serves as the national focal point for the development and delivery of emergency management training to enhance the capabilities of State, local, and Tribal government officials; other Federal agencies; volunteer organizations; and the public and private sectors to minimize the impact of disasters and emergencies on the American public. EMI curricula are structured to meet the needs of this diverse audience with an emphasis on separate organizations working together in all-hazards emergencies to save lives and protect property.

For more information:

- EMI: training.fema.gov/emi

FEMA/EMI Independent Study

The Emergency Management Institute's (EMI) Curriculum Standards and Instructional Technology Branch offers the Independent Study Program (ISP). This is a distance learning program which offers training, online and free of charge, to the Nation's emergency management network and the general public. It serves as both an alternative means to deliver valuable training to the professional and volunteer emergency management communities as well as an opportunity to improve public awareness and promote disaster preparedness nationally. The Independent Study Program offers more than 200 training courses via our training website.

FEMA Higher Education Program

The Higher Education Program's mission is to engage academia, emergency management professional organizations, and practitioners to work together to foster a culture of continuous learning and innovation through education and research to meet the challenges that confront the Nation. This is accomplished through support of research inquiries, special interest groups, focus groups, webinars, regional engagements, and the annual Symposium. Program activities embody the FEMA values of compassion, fairness, integrity, and respect.

The Program has made significant contributions toward achieving the National Preparedness Goal and realizing the FEMA Strategic Plan. Program activities are directly tied to FEMA doctrine, goals, and objectives and are aligned to ensure the support of quality teaching, curricula, and practice. We help build a culture of preparedness through education and research. We ready the Nation for catastrophic disasters by connecting academic resources and practice to the emergency management profession. The Program is part of the National Training and Education Division within the National Training Preparedness Directorate and works collaboratively with other programs and divisions within FEMA to provide products and services that partners and stakeholders can implement to achieve a true culture of preparedness across the Nation.

FEMA Recruitment

FEMA Recruitment provides guidance, advice, and conducts job fairs for the recruitment and employment of qualified veterans including those with service-connected disabilities. They promote, track, and advise on the diversity of the workforce. Recruitment also trains and informs the Agency on hiring opportunities and emphasizes the value that hiring veterans adds to FEMA's core values and overall culture.

Institute for Diversity and Inclusion in Emergency Management

The Institute for Diversity and Inclusion in Emergency Management (I-DIEM) is comprised of experts in social equity and emergency management. I-DIEM works with organizations who are committed to developing strategic plans and policies so they can meet the needs of vulnerable groups in times of disaster. I-DIEM offers training, course delivery, guidance development, policy review/recommendations, data analytics, and public speaking on disaster equity, climate change impacts, operationalized equity, and inclusive resilience. I-DIEM works with diverse organizations to implement operationalized equity before, during, and after disaster to reduce the negative impacts of unconscious bias.

Course held at Rutgers University for South Korean diplomats

Mid-Atlantic Center for Emergency Management & Public Safety

at Frederick Community College (FCC)

MACEM&PS encompasses the public safety curriculum at FCC and professional services focusing on grant and contract work in the public and private sectors. We provide an Emergency Management (Track 1) Associate Degree utilizing select FEMA Independent Study resources for professional advancement.

As a regionally accredited Maryland community college, we seek articulation agreements in emergency management, criminal justice, and fire service administration. Our services include providing assistance for professional strategy and operations consulting, training, professional development, risk management, business continuity, planning, and exercise. Our clients are FEMA, MEMA, and other state and local governments as well as organizations in the private sector.

Mineta Transportation Institute, San Jose State University

At the [Mineta Transportation Institute](#) (MTI), our mission is to increase mobility for all by improving the safety, efficiency, accessibility, and convenience of our Nation's transportation system. Through research, education, workforce development, and technology transfer, we help create a connected world.

MTI is a [U.S. DOT University Transportation Center](#), which is part of the California State University Transportation Center and includes the [National Transportation Security Center](#) (NTSC). [San Jose State University](#), with support from MTI, offers a fully accredited graduate degree in Transportation Management and three graduate certificate programs, including a certificate in Transportation Security Management, which includes coursework in emergency management. MTI's emergency management and transportation security research publications include emergency management, physical security, and counterterrorism topics.

National Disaster Preparedness Training Center

NDPTC is authorized to develop and deliver training and educational programs related to homeland security and disaster management, with a specific focus on natural hazards, coastal communities, and the special needs and opportunities of islands and territories. The Center is a member of the National Domestic Preparedness Consortium (NDPC), which was expanded in 2007 to address all-hazards vulnerabilities by the addition of the University of Hawaii. NDPTC is committed to working with academic institutions to implement curriculum, courses, and programs through the integration of instructor-led and web-based training courses, webinars, and resources into academic settings.

Readiness and Emergency Management for Schools Technical Assistance Center

REMS TA Center is the one-stop shop for all public and nonpublic education agencies looking to enhance their school (K-12 and higher education) safety programs and overall preparedness efforts. During this Webinar, participants learned about all the free products and services that the REMS TA Center offers to 2-year and 4-year institutions of higher education (IHEs) on safety, security, and emergency management topics. The U.S. Department of Education's Office of Safe and Supportive Schools and its REMS TA Center hosted this Webinar to provide IHEs with information on free services and products that are available to enhance school safety programs and overall preparedness efforts.

ResponderStrong

Did you know that emergency responders and workers have a suicide and addiction rate that is double the national average? The mental, emotional, and physical impacts of emergency response work can compromise their ability to protect our communities and be there for their families.

Founded at the National Mental Health Innovation Center of the University of Colorado, ResponderStrong is a collaboration between emergency responders and their advocates. Its mission is to improve the mental health support for those who work in any aspect of emergency management and their families through a focus on intervention and prevention. Their website is an amazing resource-map of tools, videos, and educational materials.
